Background

Myc-tag antibody is part of the Tag series of antibodies, the best quality in the research. The immunogen of Myc tag antibody is a synthetic peptide corresponding to residues 410-419 of the human p62 myc protein conjugated to KLH. Myc tag antibody is suitable for detecting the expression level of Myc or its fusion proteins where the Myc tag is terminal or internal.

Western blot analysis of Myc-tagged protein expression in (1) 293T cell lysate; (2) 293T cell transfected with Myc-tagged protein lysate.
